OMAR MAHMOUD AHMED

Full-Stack Web Developer

+20 103 031 5627 • omarmahmoud.devv@gmail.com • github.com/OmarMahmoud2002 • linkedin.com/in/omarmahmoud2002 • https://omar-portfolio-self.vercel.app/

Summary

I am a detail-oriented and self-motivated full-stack web developer with a robust foundation in front-end and back-end technologies. My experience includes freelance project delivery utilizing modern tech stacks and open-source frameworks, resulting in the creation of responsive, scalable, and efficient web applications that prioritize performance and user experience

My Portfolio: https://omar-portfolio-self.vercel.app/

Experience

Optomatica — Remote

Full-Time Web Developer (Full Stack) — 07/2025 - 11/2025

Remote full-time web development position

- Developed and maintained web applications using PHP and Laravel
- Implemented backend services and APIs with Java and Spring Boot
- Collaborated with cross-functional teams to deliver scalable and efficient solutions

Freelance — Remote

Freelance Web Developer — 01/2025 - 05/2025

Remote freelance web development

- Developed a Python-based web scraping tool to automate data extraction for clients
- Designed and implemented responsive websites using HTML, CSS, and JavaScript
- Created a PHP application to extract and process data from Excel files
- Built and customized WordPress sites to meet client-specific requirements

Education

Information Technology Institute (ITI) — Assiut Branch

9-Month Professional Diploma — 10/2024 - 07/2025

- Open-Source Track Assiut Branch

Egyptian E-Learning University (EELU) — Assiut

Bachelor in Computer Science | GPA: **3.4** / 4.0 — 07/2020 - 06/2024

Skills

Back-End: PHP · Laravel · Node.js · Python · Java

Frontend: HTML5 · CSS3 · JS (ES6+) · React · Vue · Angular · Tailwind · Bootstrap

Databases: MySQL · MongoDB · SQL

Tools: Git · Bash · Linux · Docker · JWT · OAuth

Projects

Nursing Platform

https://github.com/OmarMahmoud2002/Graduation-Project-ITI

- Developed a **full-stack healthcare platform** connecting verified nurses with patients for at-home care.
- NurseConnect is a **NestJS** and **Next.js** platform that connects verified nurses with nearby patients for trusted at-home healthcare services — featuring location-based matching, secure bookings, and commission-based payments.

Laravel Job Board Platform

https://github.com/OmarMahmoud2002/Laravel-Job-Board

- Created a **job board system** with **multi-role access (Admin, Employer, Candidate)** using **Laravel & MySQL**.
- Implemented job listings, applications management, and role-based dashboards.

Exam System

https://github.com/OmarMahmoud2002/Exam_System_Project

- Built a **web-based exam management system** enabling dynamic question creation and exam grading.
- A full-stack web application built with **Angular** for a dynamic frontend, **Node.js** for the backend, and **MongoDB** for data storage. It enables students to take exams and view results, while admins manage exams, questions, and results with role-based access control.

Projects

Node.js E-commerce Platform

https://github.com/OmarMahmoud2002/Node_Project

- Developed a **RESTful API** for an e-commerce system using **Node.js, Express, and MongoDB**.
- backend-only e-commerce API built with Node.js, Express, and MongoDB, supporting multi-role users (User, Seller, Admin) with product management, and search functionality. Deployed on Vercel with MongoDB Atlas.

React E-commerce Store

https://github.com/OmarMahmoud2002/reactjs_Ecommerce

- Built a **responsive frontend** for an e-commerce platform using **React.js** and **React Hooks**.
- A frontend e-commerce application built with React, utilizing a third-party API to display products, featuring a responsive UI with product listings, search functionality, and cart management, styled with Tailwind CSS for a seamless user experience

Coffee PHP Project

https://github.com/OmarMahmoud2002/Coffee-PHP-Project

- Developed a **PHP-based e-commerce website** for coffee products with **order processing** and **admin dashboard**.
- Focused on backend logic, database interactions, and clean UI.

Strengths

Team Collaboration
Skilled in collaborating within teams to achieve project goals efficiently

Time Management
Effective in managing time to meet tight deadlines while ensuring high quality

Quick Learner
Quick to adapt and learn new technologies or frameworks to improve productivity

Problem Solving
Proficient in identifying problems and devising solutions promptly

Key Achievements

Achievement in Web Development
Developed multiple full-stack applications, improving client operations and user experience across various platforms

Achievement in API Development
Designed and implemented RESTful APIs with optimized database queries, enhancing system performance and reducing response time by over 30%.

Languages

Arabic Native

English B2 (Intermediate)
